Fifth: Hospitals

Accommodation beds in government hospitals in the governorates

The average bed occupancy in operating hospitals was more than **292%**

All hospital beds were converted into surgical beds (obstetrics and internal medicine), and an expansion was made to receive the wounded.

In order to increase the bed capacity of hospitals, early discharge is performed for some cases in which there is no problem in being discharged.

An expansion of additional beds was made in the corridors, tents and schools.

Note/

Family occupancy in intensive care units varies greatly due to the large influx of cases and the early discharge of infected people, and this may

It exposes the disease to danger and a strict policy has been prepared for admission to intensive care, so the numbers do not reflect the current situation.

Nasser Medical Complex ran out of many intensive care medications.

Statistics of surgical operations

The total daily surgical operations performed were 65 surgeries (56 in AD). European Gaza, 9 in AD.

Al-Najjar (The total cumulative surgical operations reached 10,005 operations.

Cumulative distribution of operations by hospital

Note

More than one operation was performed on more than one patient in one operating room, and some operations were performed in the corridors and in the open without anesthesia.

Cases are not emptied from the recovery ward after operations are performed due to the lack of beds for the injured, as there are dozens of injured people in the recovery rooms.

Due to the Israeli occupation. Loss of communication with Nasser and Al-Aqsa Martyrs Hospital.

Operating rooms have run out of nitrous gas and there is a severe shortage of other medical gases.

Many anesthesia medications ran out in the operating rooms at Nasser Medical Complex.

There is a major shortage of blood units, as donors have been depleted by repeated donations, and there is a consumption of laboratory materials and equipment. Therefore, we want to appeal to international bodies and institutions to bring blood units from outside the sector.

Gaza.

Laboratory testing of blood (CBC) is about to be stopped due to a major shortage of its materials.

Hospital laboratories in the north and Gaza are out of service due to current events.

The return of work at the Shifa Doctor Complex Blood Bank in a gradual manner.

A severe and dangerous shortage of blood units in Nasser Medical Complex due to the Israeli occupation.

Nasser Medical Complex Blood Bank did not send the report due to current events.
