Health sector emergency report

For the 117th day of aggression

Wednesday, January 31, 2024

Preparation

Health Emergency Operations Center

Palestinian Ministry of Health - Gaza Strip

01/02/2024

The topics of the

24- A comprehensive report: The following are the most important topics of the daily report of events, and it reflects a summary of the work processes in the Ministry of Health.
hour update for Wednesday, 01/31/2024.

Report: summary First

Israeli violations against the health system's capabilities and personnel are still continuing, as dozens have been damaged.

Health institutions and more than 337 cadres and medical professionals were martyred and 150 institutions were arrested. This led to (since the beginning of the aggression and all The number of targeted health institutions reached (partially) 30 hospitals, 53 health centers out of service, and more than 123 ambulances targeted and destroyed.

The number of people transferred from the Gaza Strip for treatment abroad via the Rafah crossing reached 1,243 (798 wounded, 445 patients).

The number of escorts has been 1,025 since the beginning of the aggression.

The total daily number of martyrs reached 118 martyrs, while the total daily number of wounded reached 190, half of whom were wounded.

Serious injuries.

The cumulative number of martyrs since the beginning of the aggression reached 27,019 martyrs, 70% of whom were children and women (16,628 of whom to media sources). A martyr were registered through the central information system, while more than 10,391 were monitored according Due to the interruption of communication with hospitals in Azza and the North), the number of wounded exceeded more than 66,139.

injured.

The bed occupancy rate in operating hospitals reached more than 344%, and the care bed occupancy rate reached Intensive 192%.

The Ministry of Health, through its hospitals and medical centers, continues to provide non-emergency services despite the burden

There was intense pressure as a result of the brutal aggression, as the total number of operations reached 9,461 in southern hospitals. The number of patients attending dialysis units in southern hospitals piled up, with their number today reaching more than 180 patients. The maternity service also continued despite the increased pressure due to the displacement of residents from the areas.

North.

The cumulative number of ambulance services has reached more than 76,724 ambulance services since the beginning of the aggression.

Government primary care centers continue their work despite the obstacles, the lack of medicines, the scarcity of water and food, and the lack of security and safety, as the total number of people attending since the beginning of the aggression reached 552,901, 75% of which were classified as emergency services.

Primary care recorded the number of people infected with infectious diseases, reaching 594,454 cases since the beginning of the aggression. The Supreme Committee for Health Emergencies continues its tasks in managing the health system in coordination with partners and entities International laboratories and in cooperation with local health institutions.

Secondly, attacks and violations of the health sector :

Closing health institutions		Health institutions) and all Partially targeted	first aid	Stay healthy

İ Israeli violations against the health system led to the martyrdom of 337 health personnel and owners.

medical expertise, wounding more than 350 and arresting more than 99 (since the

150 . İ The Israeli beginning of the aggression)and all The number of targeted health institutions (partially) reached

occupation deliberately targeted health institutions, which led to the removal of 30 hospitals and 53 medical centers.

Medical personnel were out of service due to targeting and running out

of fuel. İ Hospitals have lost their treatment and capacity, and medical teams are treating the wounded with very limited capabilities.

The occupation deliberately targets ambulances, the most recent of which was the targeting of an ambulance march transporting injured people heading

to the Arab Republic of Egypt. This led to the destruction of more than 123 ambulances and their being out of service.

Attachment (1) Names of hospitals that are out of service **Attachment (2)

Names of martyrs of health personnel during the ongoing Zionist aggression

Massacres against Palestinian families in the Gaza Strip

İ The number of families where massacres were committed is more than 2,221 families.

İ The number of massacres of families in the Gaza Strip on Saturday reached 15.

Wounded abroad: diversion Third

• The number of patients and wounded who left the Gaza Strip for treatment abroad via the Rafah crossing reached 1,243 (of whom 798 were 445 patients) and the number of accompanying persons reached 1,025 since the beginning of the aggression. wounded,

• The number is very small compared to the large number of cases that require operations and follow-up.

• There are 6,000 injured people who need to travel for life-saving treatment. •

There are 10,000 cancer patients at risk of death.

Fifth: Hospitals

Accommodation beds in government hospitals in the governorates

The average bed occupancy in operating hospitals reached more than 344%. All hospital beds were converted into surgical beds (obstetrics and internal medicine) and an expansion was made to receive the wounded. To increase the bed capacity of hospitals, early discharge is made for some cases that do not have a problem with their discharge.

An expansion of additional beds was made in the corridors, tents and schools.

Family occupancy rate % (Total number of patients/total number of basic beds)	Number of injured (maximum events)	Total number of occupied beds	Total number of beds after (before sick + wounded) Expansion	Total number of beds Basic expansion)	The hospital

						J. Indonesian
Communication interruption due to the Israeli occupation				18	9	Y. Al-Aqsa Martyrs
				40	12	Nasser Hospital,
192%	5	13	23	28	12	European Hospital
192%	5	13	23	86	33	Total

Note/

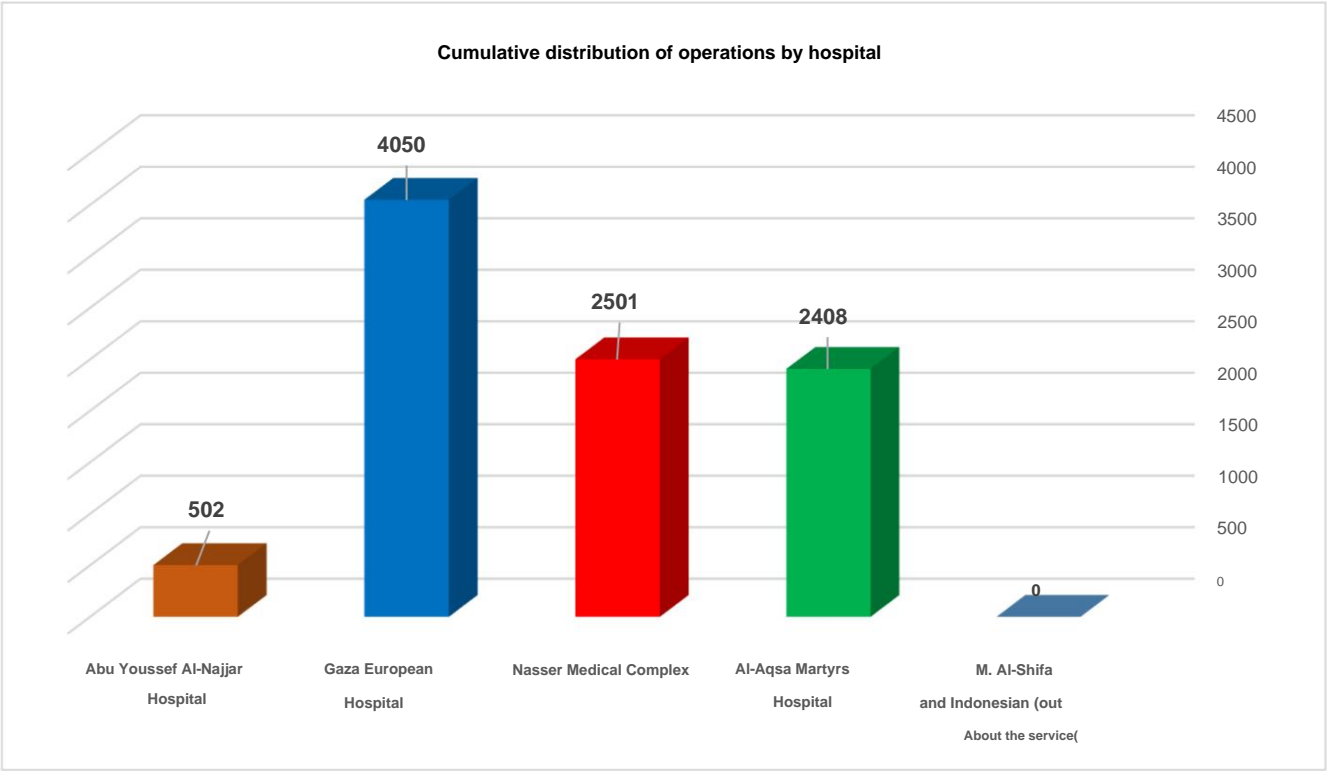

Family occupancy in intensive care units varies greatly due to the large influx of cases and the early discharge of infected people, and this may expose the disease to danger and a strict policy has been prepared for admission to intensive care, so the numbers do not reflect the current situation. Nasser Medical Complex has run out of many intensive care medications.

Statistics of surgical operations

The total daily surgeries that were performed were 54 surgeries (40 in AD). European Gaza, 11 AD.

Al-Najjar) and the total cumulative surgical operations amounted to 9,461 operations.

Note

More than one operation was performed on more than one patient in one operating room, and some operations were performed in

the corridors and in the open without

anesthesia. Cases are not emptied from the recovery ward after operations are performed due to the lack of beds for the injured, as

there are dozens of injured people in the recovery rooms.

Due to the Israeli occupation. Loss of communication with Nasser and Al-Aqsa Martyrs Hospital.

Operating rooms have run out of nitrous gas and there is a severe shortage of other medical gases.

Many anesthesia medications have run out in the operating rooms at Nasser Medical Complex.

8 types of vaccinations were provided, some of which are sufficient for three months and some for more than that, with the exception of the rotavirus vaccine, which is not yet available. 46 health centers were closed (9 in the north, 12 in Gaza, 13 in the middle, 10 in Khan Yunis, 2 in Rafah) due to (unsafe areas, proximity to border areas, difficulty for citizens to reach them) and employees were distributed to the centers in the governorates.									beginning of the aggression
Primary care services are provided in 48 medical points distributed in shelter centers and gathering citizens in the city of Rafah and Khan Yunis.									Notes
In the Gaza region due to the displacement of citizens to the south of the Gaza Strip A severe shortage of the nursing workforce and a limited shortage of doctors in particular Power outage and most health centers running out of fuel stocks. The work environment is disastrous due to the interruption of water and food supplies and the absence of security and safety. A shortage of medicines and medical consumables, and a shortage of primary care items of more than 60% of the basic list of primary care medicines. 350,000 chronic patients without medication, which leads to serious health complications for chronic patients. Difficulty in getting employees to their workplaces in health centers. Intense pressure from people visiting health centers due to the displacement of citizens and the cessation of services provided by the relief agency. We are unable to reopen new centers to provide vaccination services due to the shortage of nursing staff. Most UNRWA centers closed their services, increasing pressure on primary care centres. The accumulation of displaced people in the southern regions has increased work pressure on primary care centers in the south. The accumulation of displaced people in shelter centers in light of these cold weather has increased the spread of respiratory, skin, and other infectious diseases, which poses a threat to the health system and to citizens. Dangerous Citizens assaulting working crews (chaos in all our centers as citizens exceed all limits in order to charge their cell phones and batteries) Their homes and to fill water...etc.									Obstacles

Distribution of people attending primary care according to the type of service provided

Cumulative infectious diseases report from the beginning of the aggression until the date (01/28/2024)

594,454 infectious cases were monitored and recorded in primary care centers, the government and the relief agency.

A survey of infectious diseases was not conducted in shelter centers and places where displaced people gather due to the continuous bombing and the danger of human personnel movement. The spread of hepatitis A as a result of overcrowding in shelter centers and low levels of hygiene in displacement sites in the Gaza Strip.

Where donors have been depleted by repeated donations and there is a consumption of laboratory materials There is a major shortage of blood units and equipment and therefore we want to appeal to international bodies and institutions regarding the necessity of bringing blood units from outside the sector

Gaza.

Laboratory testing of blood (CBC) is about to be stopped due to a major shortage of its materials. Hospital laboratories in the north and Gaza are out of service due to current events. The doctor returns to work at the Al-Shifa Complex Blood Bank in a gradual manner.

An acute and dangerous shortage of blood units in Nasser Medical Complex due to the Israeli occupation.
