## Fifth: Hospitals

### ✓ Accommodation beds in government hospitals in the governorates

- The average bed occupancy in operating hospitals reached more than **325%**
- All hospital beds were converted into surgical beds (obstetrics and internal medicine), and an expansion was made to receive the wounded.
- To increase the bed capacity of hospitals, early discharge is made for some cases that do not have a problem with their discharge.
- Extra beds were expanded in corridors, tents and schools.

the hospital	Total number of expansion Basis J (before expansion)	Total p Dr The family sold out Expansion	Total p dd The mother family (Disease E + C I will be)	Number of wounded (Extreme events )	Family occupancy rate % (Total number of diseases/total Number of basic beds j)
M. Indonesia j	■ I was out of work due to current events and the targeting of people Health				
Al-Shifa Medical Complex					
M. Kamal Adwan					
Nasser Medical Complex					
M. Martyrs of Al-Aqsa	■ Communication interruption due to the occupation				
M. European Gaza	258	680	751	655	291%
M. Abu Youssef Al-Najjar	56 (of which 21 came out due to maintenance)	80	201	25	359%
Total	314	760	948	676	325%

### ✓ Intensive care in government hospitals

- The occupancy rate of care beds in operating hospitals reached more than **250%**.

the hospital	Number of beds ICU the basic	Number of ICU beds Expansion	Total count Dr The mother family (illness + gen alive)	Exponent number Inhabited (Ah Maximum)	Number of beds Available	Ratio that Shamily gal% (a Mali number as exponent base number)
Al-Shifa Complex	■ I went out of work due to current events and the targeting of the founder by the Israeli occupation					Health care
Indonesian j

Martyrs of Al-Aqsa	■ Communication interruption due to the Israeli occupation					
European Hospital	12	34	30	27	4	05%2
Total	12	34	30	27	4	50%2

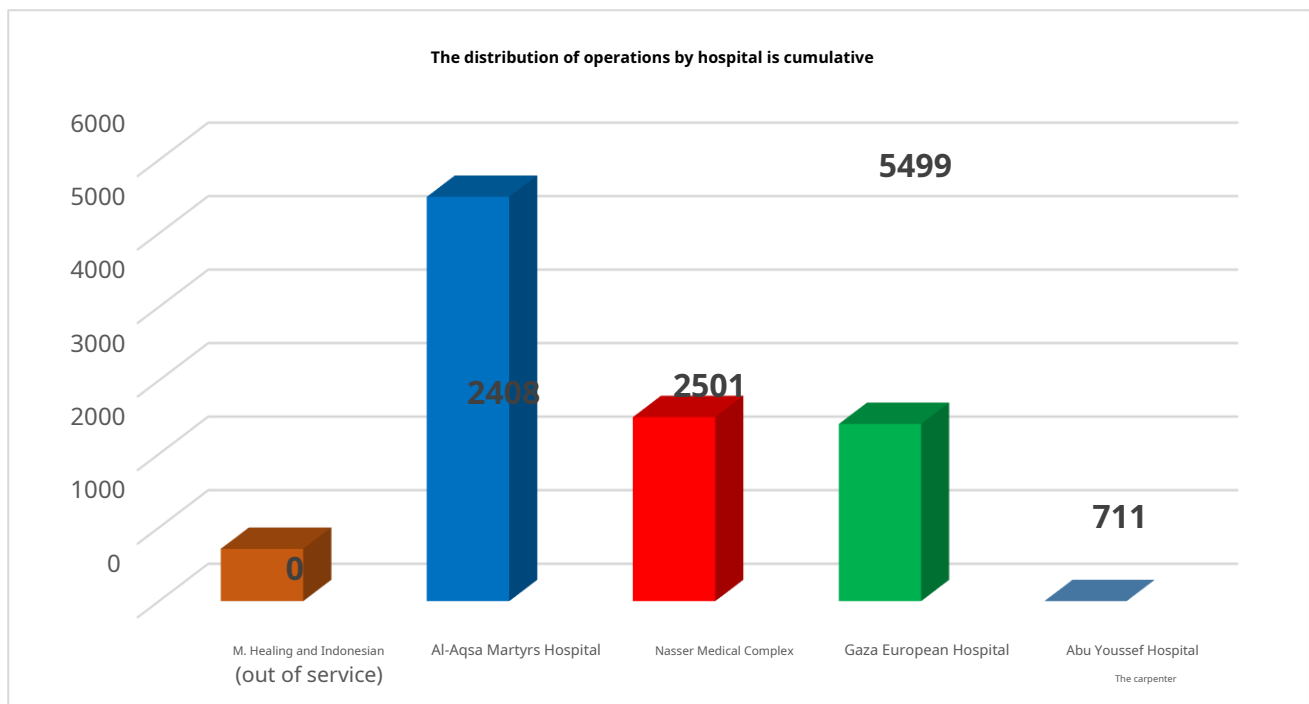

#### ■ note/

- Bed occupancy in intensive care units varies greatly due to the large influx of cases and early discharge of the injured, and this may It exposes patients to danger. A strict policy has been prepared for admission to intensive care, so the numbers do not reflect the current situation.
- Nasser Medical Complex has run out of many intensive care medications.

### ✓ Statistics of surgical operations

- Total daily surgical operations performed **33** surgery (**28** in M. European Gaza, **5** in M. Al-Najjar) and the total cumulative surgical operations amounted to **11,119** practical.

### ▪ note

- More than one operation was performed on more than one patient in one operating room, and some operations were performed in Corridors, sobriety, and without drugs.
- Cases are not emptied from the recovery ward after operations are performed due to the lack of beds for the injured There are dozens of injured people in the recovery rooms.
- Operating rooms have run out of nitrous gas, and there is a severe shortage of other medical gases.
- Loss of communication with Al-Aqsa martyrs due to the Israeli occupation.
- Nasser Medical Complex was out of service due to the Israeli occupation.

✓ Kidney dialysis departments

• Total dialysis was performed for a number of patients 130 Case in hospitals during 24 hours.

#	the hospital	number of units	the number of patients	Observing T

Vaccinations has been provided There are 8 types of vaccinations, some of which are enough for three months and some for more than that, with the exception of the rotavirus vaccine which is not available **ABD**

### comments

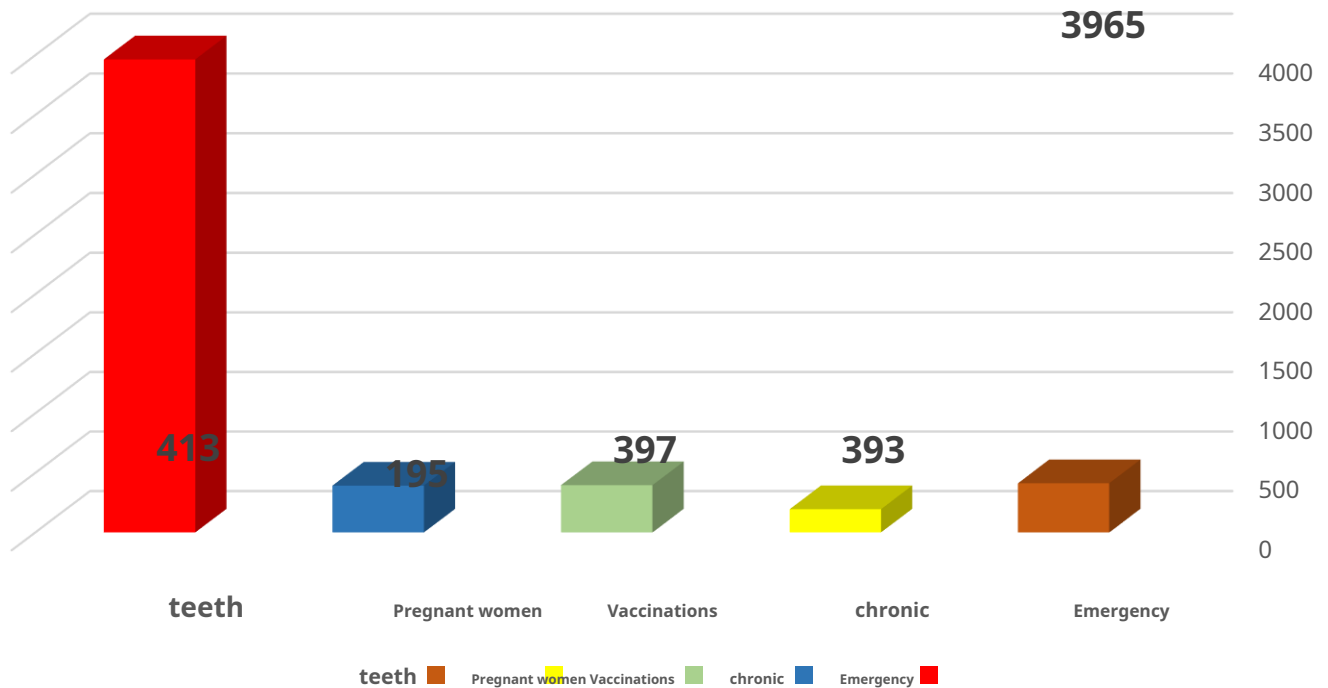

- It has been closed 40 health centers (8 in the north, 11 in Gaza, 9 in the middle, 10 in Khan Yunis, 2 in Rafah) due to (unsafe border areas, difficulty for citizens to reach them) and distributing employees to the centers in the governorates.
- Primary care services are provided in 48 medical points distributed in shelters and citizens' gathering centers in the city of Rafah and Khan Yunis.
- shortage. PKU cards
- Stop checks Which used to work in the central laboratory of the Turkish Hospital, and now the equipment and materials are not available. TSH and PKU
- The maternal and child health booklet was sold out, and UNICEF was contacted more than once to no avail.

### Obstacles

- A severe shortage of the nursing workforce and a limited shortage of doctors, especially in the Gaza region due to the displacement of citizens to South Gaza strip
- The work environment is disastrous due to interruptions in electricity, water, and food supplies, and the absence of security and safety.
- A shortage of medicines and medical consumables and a shortage of primary care items of more than 60% of the core list of primary care medications.
- 350,000 chronic patients are without medication, and this leads to serious health complications for chronic patients.
- Difficulty in getting employees to their workplaces in health centers.
- Intense pressure from people visiting health centers due to the displacement of citizens and the cessation of services provided by the relief agency.
- We are unable to reopen new centers to provide vaccination services due to the lack of nursing staff.
- The closure of most UNRWA centers for their services has increased the pressure of people visiting primary care centres.
- The accumulation of displaced people in the southern regions increased the work pressure on primary care centers in the south.
- The crowding of displaced people in shelter centers in light of these cold conditions has increased the spread of respiratory, skin, and other infectious diseases. A threat to the health system and citizens. Which constitutes
- Attack on working crews by citizens (chaos in all our centers, where citizens exceed all limits in order to charge their mobile phones and batteries Their homes and to fill water... etc.

Distribution of people attending primary care according to the type of service provided

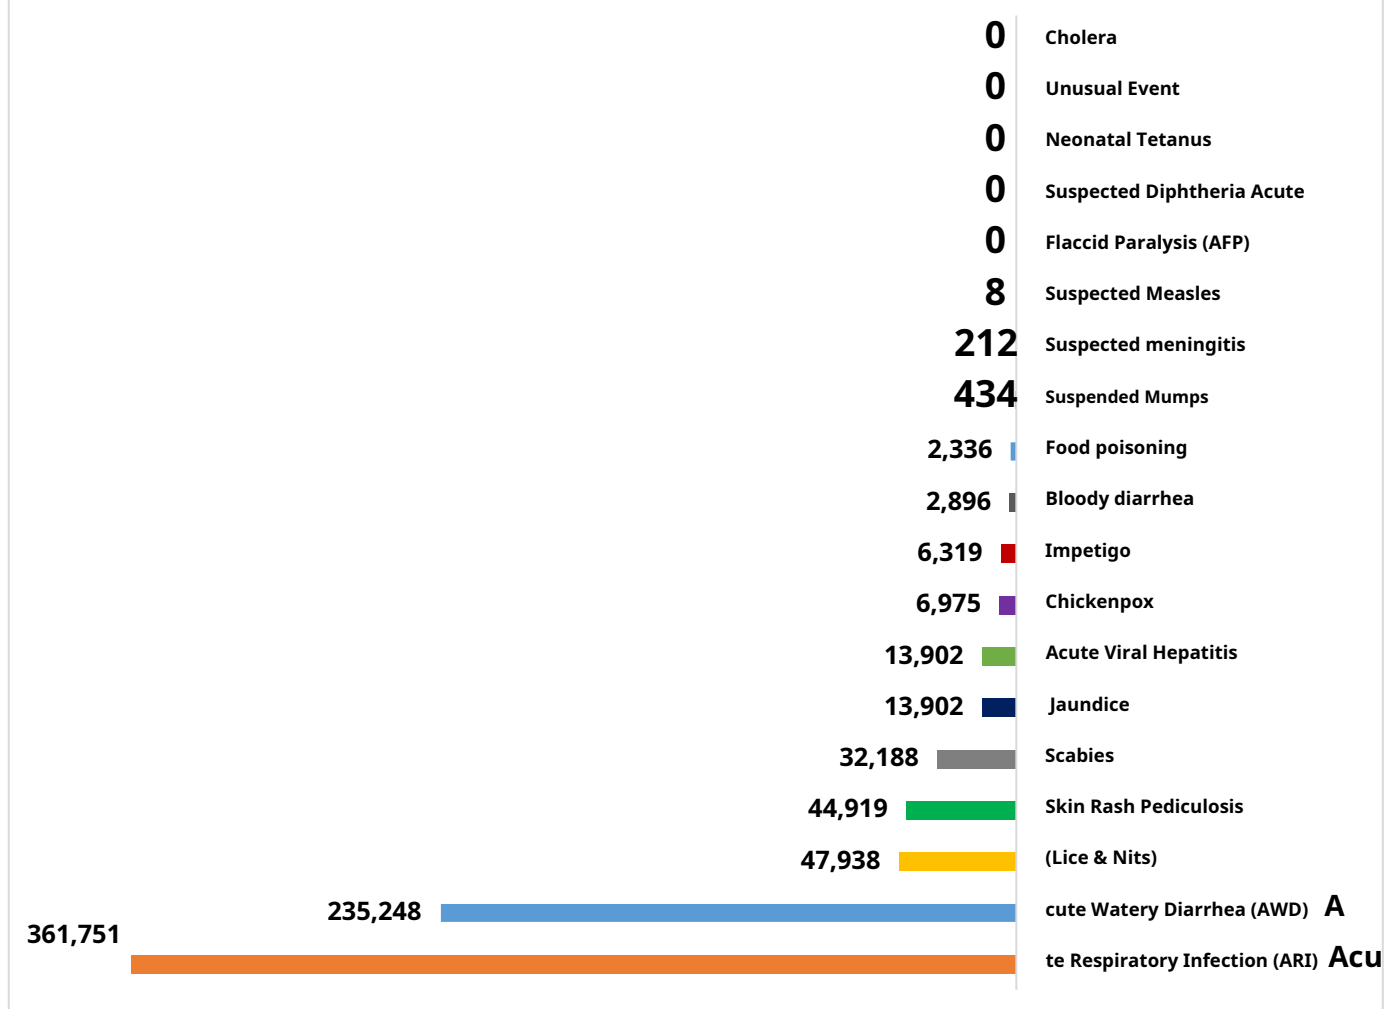

Cumulative infectious diseases report from the beginning of the aggression until the date of (03/04/2024)

- Monitored and recorded **769,028** Infectious case in primary care centers, government and UNRWA.
- Of them **13,902** A case of hepatitis C type infection **AA** as a result of massive overcrowding in shelter centers Low levels of hygiene in places of displacement in the Gaza Strip.
- No survey was conducted for infectious diseases in shelter centers and gathering places for those displaced due to the bombing The continuous and dangerous movement of human staff.

#### Distribution of infectious cases registered in primary care centers and UNRWA by type of disease
