Health sector emergency report

For the 149th day of aggression

Sunday, March 3, 2024

Preparation

Health Emergency Operations Center

Palestinian Ministry of Health - Gaza Strip

04/03/2024

Idioms of speech

An update, Below are the most important aspects of the daily report of events and reflects a summary of work progress in the Ministry of Health including 24 hours a day, Sunday, 03/03/2024.

the report :summary First

Israeli violations against the health system's capabilities and personnel are still continuing, as dozens have been damaged.

Health institutions and more than 348 medical personnel and specialists were martyred, and 269 were arrested.

155 institutions, which led to the number of health institutions targeted (partially) since the beginning of the aggression.

32 hospitals and 53 health centers were taken out of service, and more than 126 ambulances were targeted and destroyed.

The number of those referred from the Gaza Strip for treatment abroad via the Rafah crossing reached 2,613 (1,698 wounded, 915 patients) and the number of those accompanying them reached 1,785 since the beginning of the aggression.

wounded. The total daily number of martyrs reached 124 martyrs, while the total daily number of wounded reached 210 , half of whom were Serious injuries.

The cumulative number of martyrs since the beginning of the aggression reached 30,534 martyrs, 70% of whom were children and women (17,348 of whom to media sources). A martyr were registered through the central information system, while more than 13,186 were monitored according Due to the interruption of communication with hospitals in Azza and the North), the number of wounded exceeded more than 71,920.

injured.

The bed occupancy rate in operating hospitals reached more than 295%, and the care bed occupancy rate reached Intensive 267%

The Ministry of Health, through its hospitals and medical centers, continues to provide non-emergency services despite the burden And intense pressure as a result of the brutal aggression, as the total number of operations reached 10,828 in southern hospitals.

The number of patients attending dialysis units in hospitals in the south has piled up, and their number has reached today More than 120 patients, and the maternity service continued despite increased pressure due to the displacement of residents from areas North.

The cumulative number of ambulance services has reached more than 89,216 ambulance services since the beginning of the aggression.

Governmental primary care centers continue their work despite the obstacles, the lack of medicines, liquids and food, and the lack of security.

And safety, as the total number of visitors since the beginning of the aggression reached 994,224, 75% of which were classified as emergency services.

Primary care recorded the number of people infected with infectious diseases, reaching 713,580 cases since the beginning of the aggression.

The Supreme Committee for Health Emergencies follows up on its tasks in managing the health system in coordination with partners and entities International laboratories and in cooperation with local health institutions.

Secondly, attacks and violations of the health sector :

Closing health institutions		Health institutions) and all Partially targeted	first aid	Stay healthy		
Health center	hospital			Detainees	Injuries	Martyrs
53	32	155	126	269	400	348

İ Israeli violations against the health system led to the martyrdom of 348 health personnel and owners.

Medical specialists injured more than 400 and arrested more than 169

155 institutions. since the beginning of the aggression the number of health institutions targeted has reached (partially)

İ The Israeli occupation deliberately targeted health institutions, which led to the removal of 32 hospitals and 53 medical centers.

Medical personnel were out of service due to targeting and running out of fuel.

İ Hospitals have lost their treatment and capacity, and medical staff are treating the wounded with very simple capabilities.

The occupation deliberately targets ambulances, the most recent of which was the targeting of an ambulance march transporting injured people heading

to the Arab Republic of Egypt. This led to the destruction of more than 126 ambulances and their out of service.

Attached (1) are the names of the hospitals that are out of service

**Attachment (2) Names of martyrs of health personnel during the ongoing Zionist aggression

Massacres against Palestinian families in the Gaza Strip

İ The number of families in which massacres were committed is more than 2,750 families.

İ The number of massacres of families in the Gaza Strip on Sunday reached 13.

The wounded are out: transformation^y Third

ÿ The number of patients and wounded who left the Gaza Strip for treatment abroad via the Rafah crossing reached **2,613** (of whom **1,698** were

wounded, **915** patients) and the number of escorts reached **1,785** since the beginning of the aggression.

ÿ The number is very small compared to the large number of cases that require operations and follow-up.

ÿ There are **10,000** wounded people who need to travel for treatment to save lives.

ÿ There are **9,000** cancer patients at risk of death.

Fifth: Hospitals

Accommodation beds in government hospitals in the governorates

The average bed occupancy in operating hospitals reached more than 295%

All hospital beds were converted into surgical beds (obstetrics and internal medicine), and an expansion was made to receive the wounded.

In order to increase the bed capacity of hospitals, early discharge is made for some cases in which there is no problem with their discharge.

An expansion of additional beds was made in the corridors, tents and schools.

Family occupancy rate % (Total number of patients/total number of basic beds)	Number of injured (maximum events)	Total number The total number of occupied beds	Family after basic (accept (sick + wounded)) Expansion	Total number of beds (after expansion)	The hospital

%267	2	25	32	34	12
%267	2	25	32	34	12
					European Hospital
					Total

Note/

Family occupancy in intensive care units is highly variable due to the large influx of cases and the early exit of the infected, and this may expose the disease to danger. A strict policy has been prepared for admission to intensive care, and therefore the numbers do not reflect the picture of the current situation.

Nasser Medical Complex ran out of many intensive care medications.

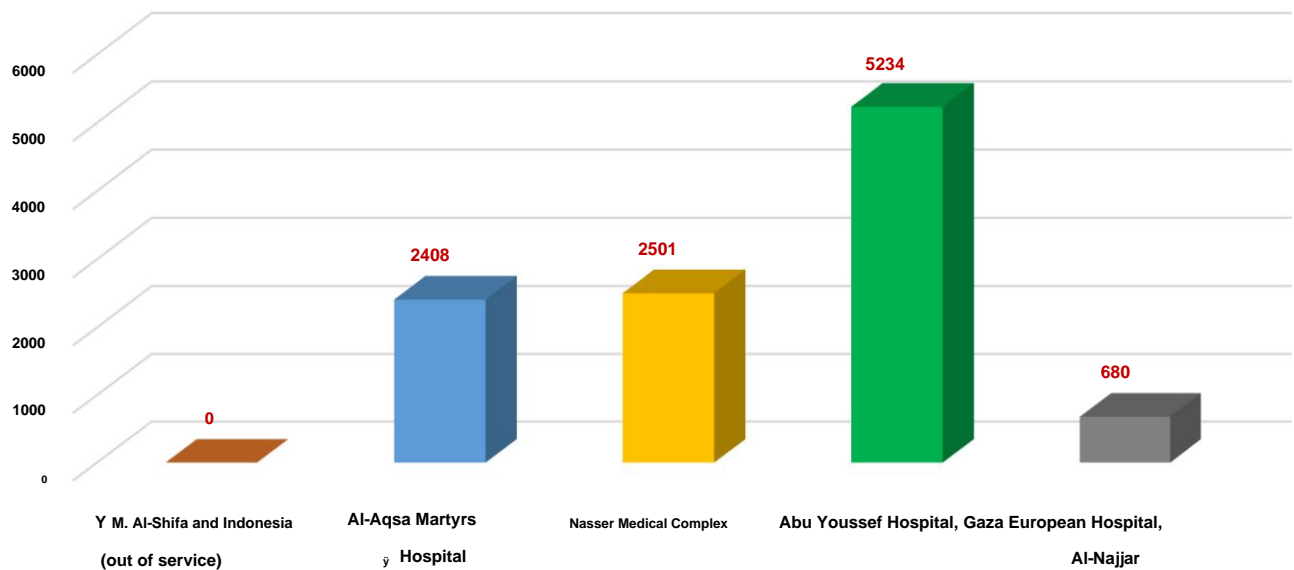

Statistics of surgical operations

The total number of daily surgical operations performed was 48 (43 in AD) . European Gaza, 5 in AD.

Al-Najjar (The total cumulative surgical operations amounted to 10,828 operations.

Cumulative distribution of operations by hospital

Note

More than one operation was performed on more than one patient in one operating room, and some operations were performed in the corridors and in the open without anesthesia.

Cases are not emptied from the recovery ward after operations are performed due to the lack of beds for the injured, as there are dozens of injured people in the recovery rooms.

Nitrous gas has run out in operating rooms, and there is a severe shortage of other medical gases.

Due to the Israeli occupation. Communication interruption, martyrs of Al-Aqsa

The medical staff was out of service due to the Israeli occupation.

8 types of vaccinations were provided, some of which are sufficient for three months and some for more than that, with the exception of the rotavirus vaccine, which is not yet available.							Vaccinations	
40 health centers were closed (8 in the north, 11 in Gaza, 9 in the middle, 10 in Khan Yunis, 2 in Rafah) due to (unsafe areas, proximity to border areas, difficulty for citizens to reach them) and employees were distributed to the centers in the governorates.								Notes
Primary care services are provided in 48 medical points distributed in shelter centers and citizens' gatherings in the city of Rafah and Khan Yunis.								
PKU cards. Lack of PKU								
and TSH tests that were running in the central laboratory at the Turkish Hospital have stopped, and now the equipment and materials are not available.								
The maternal and child health booklet was sold out, and UNICEF was contacted more than once to no avail.								
In the Gaza region due to the displacement of citizens to the south of the Gaza Strip Boredom among the nursing category and a limited deficiency among the doctors category, especially Severe shortage of manpower The work environment is disastrous due to the interruption of electricity, water, food supplies, and the absence of security and safety.								Obstacles
A shortage of medicines and medical consumables and a shortage of primary care items of more than 60% of the basic list of primary care medicines.								
350,000 chronic patients are without medication, and this leads to serious health complications for chronic patients.								
Difficulty in getting employees to their workplaces in health centers.								
Intense pressure from people visiting health centers due to the displacement of citizens and the cessation of services provided by the relief agency.								
We are unable to reopen new centers to provide vaccination services due to the shortage of nursing staff.								
Most UNRWA centers closed their services, increasing pressure on primary care centres.								
The accumulation of displaced people in the southern regions increased work pressure on primary care centers in the south.								
The overcrowding of displaced people in shelter centers in light of this cold climate has increased the spread of respiratory, skin and other infectious diseases, which constitutes								
On the health system and on citizens. Dangerous								
Attack on working crews by citizens (chaos in all our centers as citizens exceed all limits in order to charge their cell phones and batteries).								
Their homes and to fill water...etc.								

Distribution of people attending primary care according to the type of service provided daily

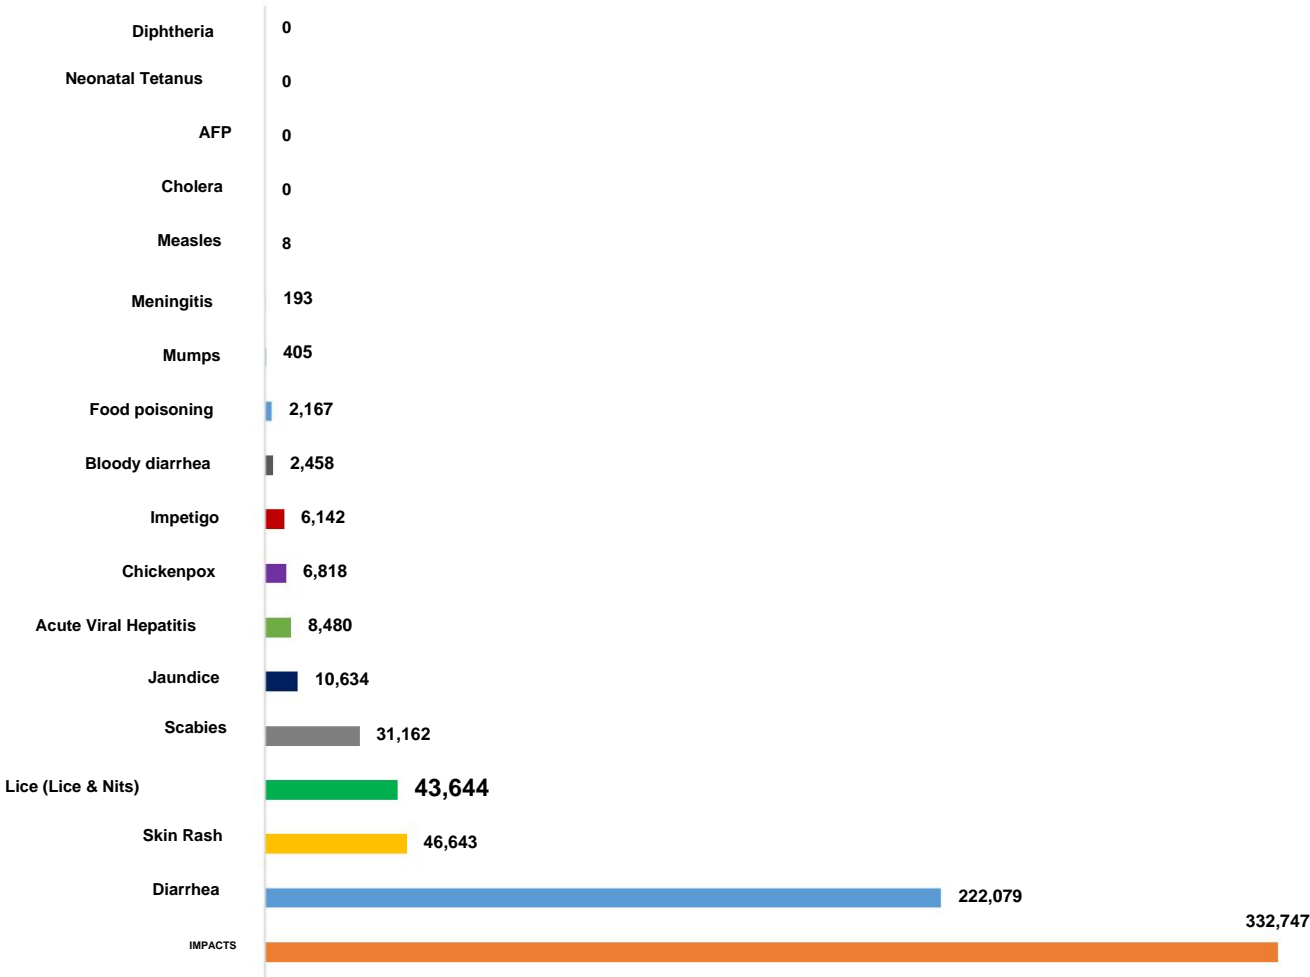

Cumulative infectious diseases report from the beginning of the aggression until the date (02/18/2024)

713,580 infectious cases were monitored and recorded in primary care centers, the government and the relief agency. Of these, 8,480 cases of hepatitis A infection occurred as a result of significant overcrowding in shelter centers.

Low levels of hygiene in places of displacement in the Gaza Strip.

A survey of infectious diseases was not conducted in shelter centers and places where displaced people gather due to the continuous bombing and the danger of human personnel movement.

Distribution of infectious cases registered in primary care centers and relief agencies by type of disease

Eighth: Laboratories and blood banks

A detailed table of blood units and laboratory materials available in hospitals

	0	0.8	0.35	3 card- 25 AHG-20 BA	4620	602	2354	14	16	16	Total
<p>There is a major shortage of blood units, as donors have been depleted by repeated donations, and there is a consumption of laboratory materials and equipment. Therefore, we want to appeal to international bodies and institutions to bring blood units from outside the Gaza Strip.</p> <p>Laboratory testing of blood (CBC) is about to be stopped due to a major shortage of its materials.</p> <p>The laboratories of the northern and Gaza hospitals and the Nasser Medical Complex were out of service due to current events.</p> <p>The doctor will return to work in the Al-Shifa Complex gradually. .</p>											Note
