Fifth: Hospitals

Accommodation beds in government hospitals in the governorates

The average bed occupancy in operating hospitals reached more than **271%**. All hospital beds were converted into surgical beds (obstetrics and internal medicine) and an expansion was made to receive the wounded. To increase the bed capacity of hospitals, early discharge is made for some cases that do not have a problem with their discharge.

An expansion of additional beds was made in the corridors, tents and schools.

Family occupancy in intensive care units varies greatly due to the large influx of cases and the early discharge of infected people, and this may

It exposes the disease to danger, and a strict policy has been prepared for admission to intensive care, so the numbers do not reflect the current situation.

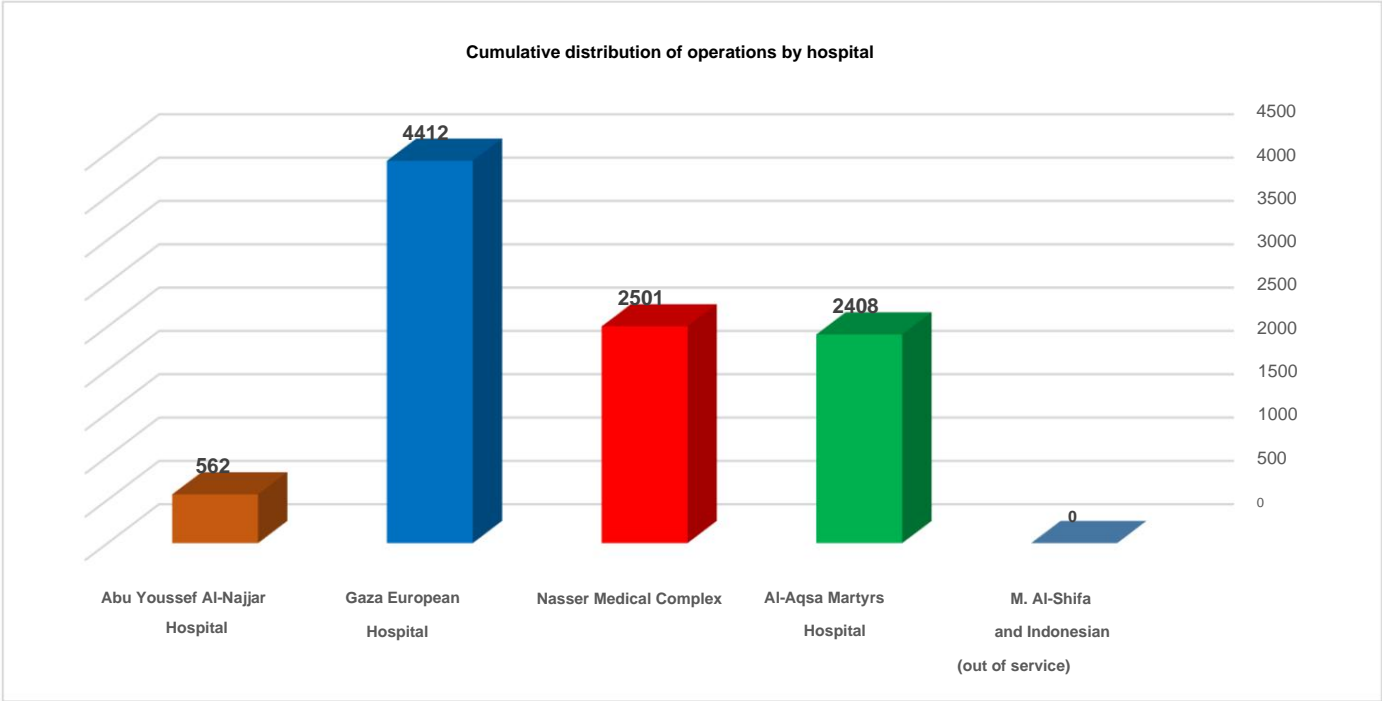

Nasser Medical Complex has run out of many intensive care medications.

Statistics of surgical operations

The total number of daily surgical operations performed was 52 (41 in AD) . European Gaza, 11 AD.

Al-Najjar) and the total cumulative surgical operations amounted to 9,883 operations.

Note

More than one operation was performed on more than one patient in one operating room, and some operations were performed in the corridors and in the open without anesthesia. Cases are not emptied from the recovery ward after operations are performed due to the lack of beds for the injured, as there are dozens of injured people in the recovery rooms.

Due to the Israeli occupation. Loss of communication with Nasser and Al-Aqsa Martyrs Hospital. Operating rooms have run out of nitrous gas and there is a severe shortage of other medical gases.

Many anesthesia medications have run out in the operating rooms at Nasser Medical Complex.
