**introduction:**

- This report monitors the number of martyrs who rose during the brutal Israeli aggression on the Gaza Strip.

In the period extending from 7-26 October 2023 at 15:00 This report contains a summary

The numbers of martyrs are classified into males, females, adults, and children, in addition to a chart that monitors the numbers

Martyrs every day.

- This report contains a complete record of the martyrs, including name, ID number, age, and gender

This report contains a special record of the names of children who were affected by the army's brutal machine of destruction

Israeli captivity during the aforementioned period of aggression.

Report summary:

- The total number of martyrs reached 7028 martyrs, including 2913 children and 4115 adults, while the total amounted to

Martyrs by gender 3129 females and 3899 males, and the number of unidentified persons reached 281 among the

total Registered martyrs.

- This report does not include the following categories:

1. Missing people under the rubble.

2. Those who were buried directly without being brought to hospitals.

3. For those whose hospitals were unable to complete their registration procedures.

- Therefore, the actual number of martyrs is hundreds of martyrs higher than the number observed in this report.

**Work methodology:**

1. Once the martyrs arrive at the emergency department in government hospitals, the martyr's arrival data is recorded with a number Identity and personal data (once identified) with time of arrival in the computerized hospital information system.

2. Each hospital also records cases of death (martyrdom) of injured people who spent a period of time in the hospital before Their martyrdom.

! 3. Martyrs' data is transferred daily from the decentralized hospital system to the central martyrs' registry database.

4. Non-governmental hospitals, through special forms, record the data of the martyrs upon their arrival, and then they are sent

Forms for the Health Information Center at the Ministry of Health within 24 hours so that they can be entered into a register database Martyrs

! 5. The Health Information Center, after completing the previously described migration process, completes data processing and verification

It is completed and there are no repetitions or errors.

6. The Information Center prepares the daily statistical report on the numbers of martyrs and designs the shown infographic models For the general

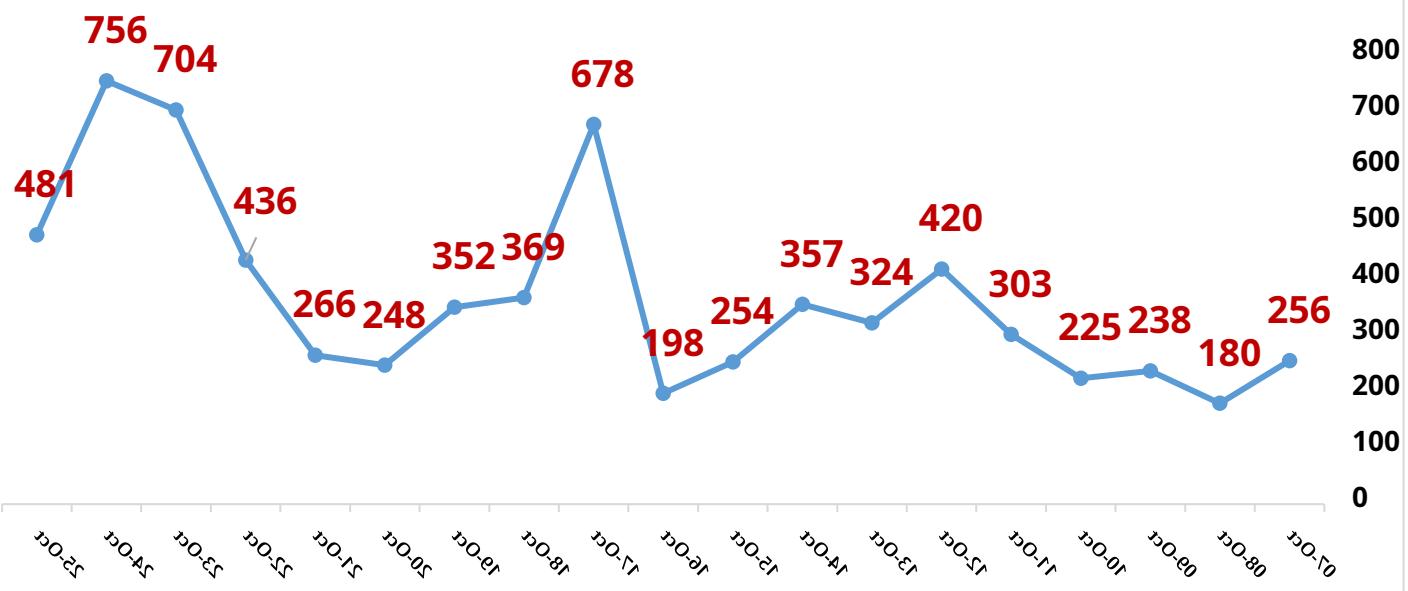

status of the martyrs' file and send it to the Health Emergency Operations Management Center for approval and circulation.
