

2024

State of Palestine

Health sector emergency report

For the 182nd day of aggression

Friday, April 05, 2024

Preparation

Health Emergency Operations Center,

Palestinian Ministry of Health - Gaza Strip

04/06/2024

Report topics

Below are the most important aspects of the daily report of events and reflects a summary of work progress in the Ministry of Health, including a 24-hour update for Thursday, 04/05/2024.

First: Summary of the report

- Israeli violations against the health system, its capabilities and cadres, are still continuing, as dozens have been damaged.
Health institutions cited more than 489 Of the cadres and medical professionals, they were arrested 310.
 - The number of health institutions targeted (partially and completely) since the beginning of the aggression has reached 155 Foundation, where this led to Directed by 32 hospital 53A health center for service, targeting and destroying more than 126 Ambulance.
 - The number of people transferred from the Gaza Strip for treatment abroad through the Rafah crossing 4,373 Of my total 14,311 An application submitted for treatment abroad, which represents a percentage 47% Since the beginning of the aggression.
 - The total number of daily martyrs reached 46 One martyr, while the total daily number of wounded reached a number 65 Half of them wounded Serious injuries.
 - The cumulative number of martyrs reached the total number since the beginning of the aggression 33,137 A martyr, one of them 21,730 Complete data Ministry of Health, in addition 11,407 A martyr who does not meet the data. The number of wounded exceeded more than 75,815 wounded.
 - The number of reports via the electronic link launched by the Ministry of Health in Gaza on (5- January 2024) to report the martyrs and missing persons - those who remained under the rubble or were buried without reaching hospitals - until now. 2,786 Report.

 - Registered by the Ministry of Health 28 Deaths due to malnutrition and dehydration in Gaza and North Gaza since last February
Even then, most of them were only 12 months old.
- The bed occupancy rate in operating hospitals reached more than 309% The occupancy rate of intensive care beds has reached 258%.
- The Ministry of Health, through its hospitals and medical centers, continues to provide non-emergency services despite the burden The intense pressure as a result of the brutal aggression reached the total number of operations 11,995 In southern hospitals, The number of patients attending dialysis units in hospitals in the south has piled up, and today their number has reached more than 30 sick, and the maternity service continued despite the increased pressure due to the displacement of residents from the areas North.
- The cumulative number of ambulance services reached more than 97,001 Ambulance service since the beginning of the aggression.
 - Governmental primary care centers continue to work despite the obstacles, the lack of medicines, the scarcity of water and food, and the lack of security And safety, as the total number of undecided people reached since the beginning of the aggression 1,143,354 Classified 75% Including emergency services.

- Primary care recorded the number of people infected with infectious diseases, as it reached since the beginning of the aggression **1,088,764** condition.

- The Supreme Committee for Health Emergencies continues its tasks in managing the health system in coordination with partners and entities

International and in cooperation with local health institutions.

!

Second: Attacks and violations of the health sector

Stay healthy			first aid	Founders	Get healthy	Closing health institutions			
Martyrs	Injuries	M		Targeted	H	partially and completely	M	u will be healed	center correct
489	600	310	126		515		32		35

- Israeli violations against the health system led to martyrdom **489** From health personnel and owners Medical expertise

and more than one injury **600** And more than one arrest **310**.

- The number of health institutions targeted (partially and completely) since the beginning of the aggression has reached **155** institution.

- The Israeli occupation deliberately targeted health institutions, which led to the expulsion **32** hospital **53** Focused Medically, he was out of service due to targeting and running out of fuel.

Hospitals have lost their treatment and capacity, and medical teams are treating the wounded with very limited capabilities.

The occupation deliberately targets ambulances, the most recent of which was the targeting of an ambulance transporting

injured people Heading to the Arab Republic of Egypt, this led to destruction **more than 126** An ambulance out of service.

* * Attached (1) are the names of the hospitals that are out of service

* * Attached (2) are the names of the martyrs of health personnel during the ongoing Zionist aggression

Massacres against Palestinian families in the Gaza Strip

- The number of families against whom massacres were committed is more than **3,013** family.

The number of massacres against families in the Gaza Strip on Friday reached (05/04) **4** Massacres.

!

Third: Transferring the wounded abroad

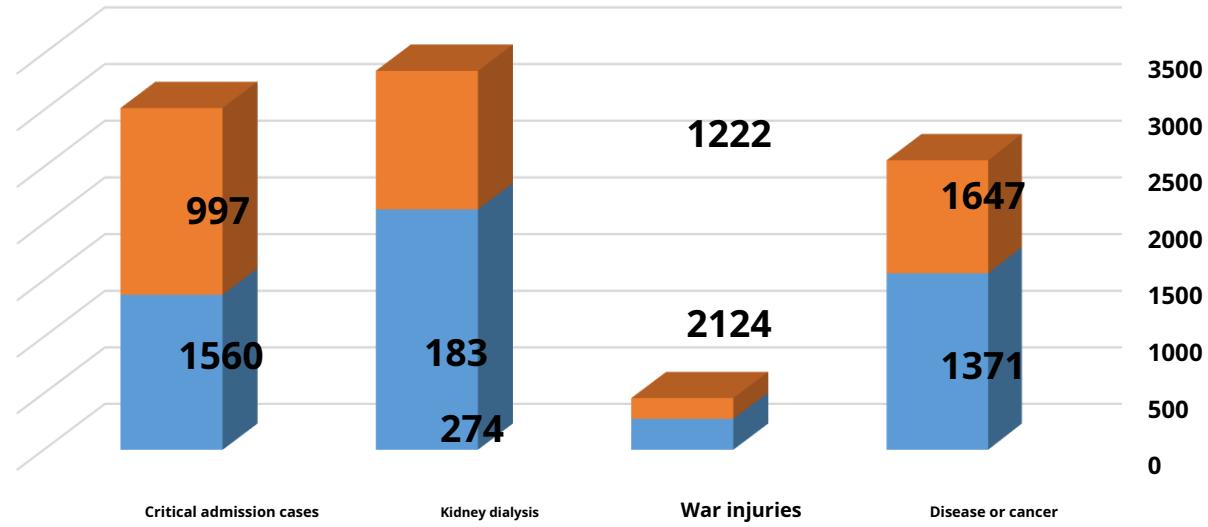

- The number of people transferred from the Gaza Strip for treatment abroad through the Rafah crossing 4,373 Of my total 14,311 An application submitted for treatment abroad, which represents a percentage 47% Since the beginning of the aggression.

The number is very small compared to the large number of cases that require operations and follow-up.

- there 10,000 An injured person needs to travel for treatment to save a life.
- there 9,000 Cancer patients face the risk of death.

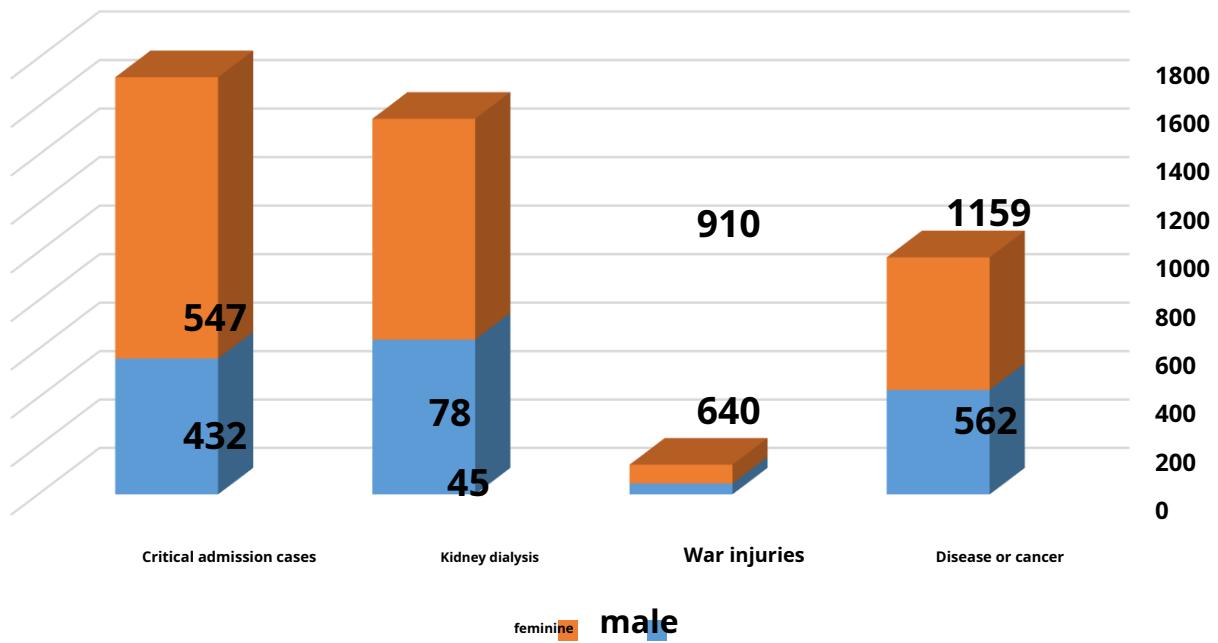

clause	the number	%
Number of applications submitted	4311

Distribution of martyrs received by the Ministry of Health according to registration/reporting

Medical staff registration ■

Informing the families of the martyrs ■

The distribution of martyrs by hospital is cumulative

note//

- Martyrs with complete information are the martyrs listed in the records of the Ministry of Health who were registered through the medical staff Directly, or through informing the families of the martyrs.
- The martyrs do not have complete information that includes (identity number, full name, gender, date of birth, date of martyrdom) and are missing Any of this data is considered incomplete data.
- These numbers of martyrs are directly related to injuries resulting from direct attacks of war and do not include deaths Natural.
- These numbers do not include missing persons and bodies trapped under the rubble.

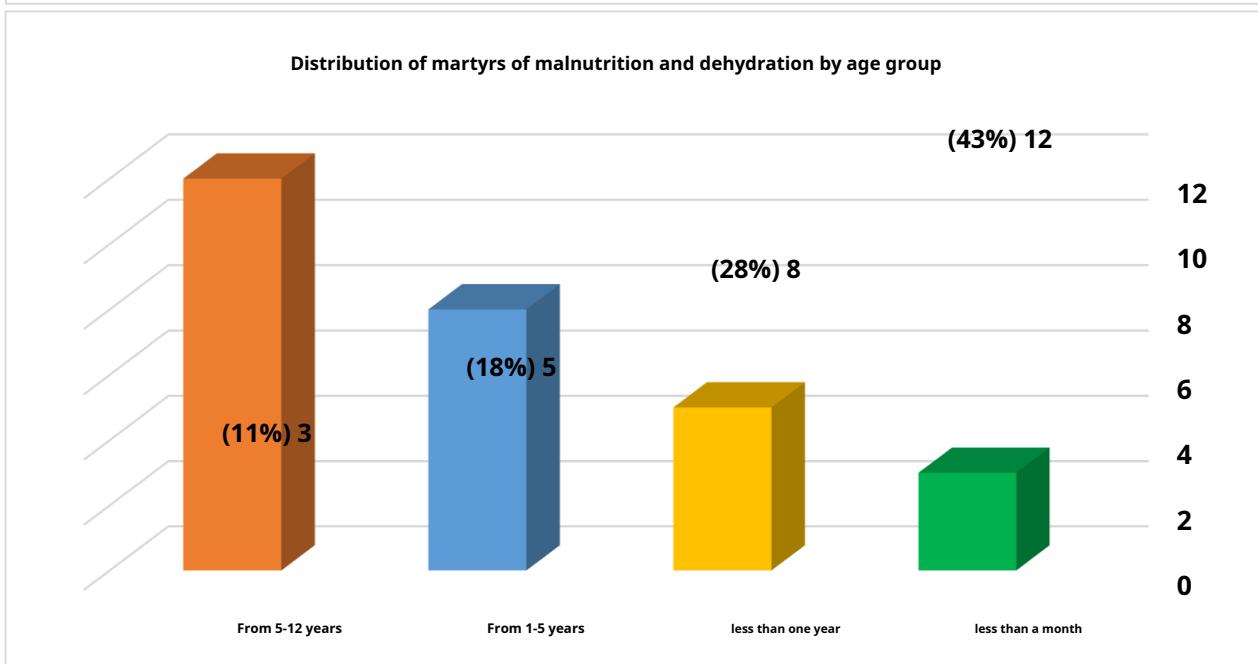

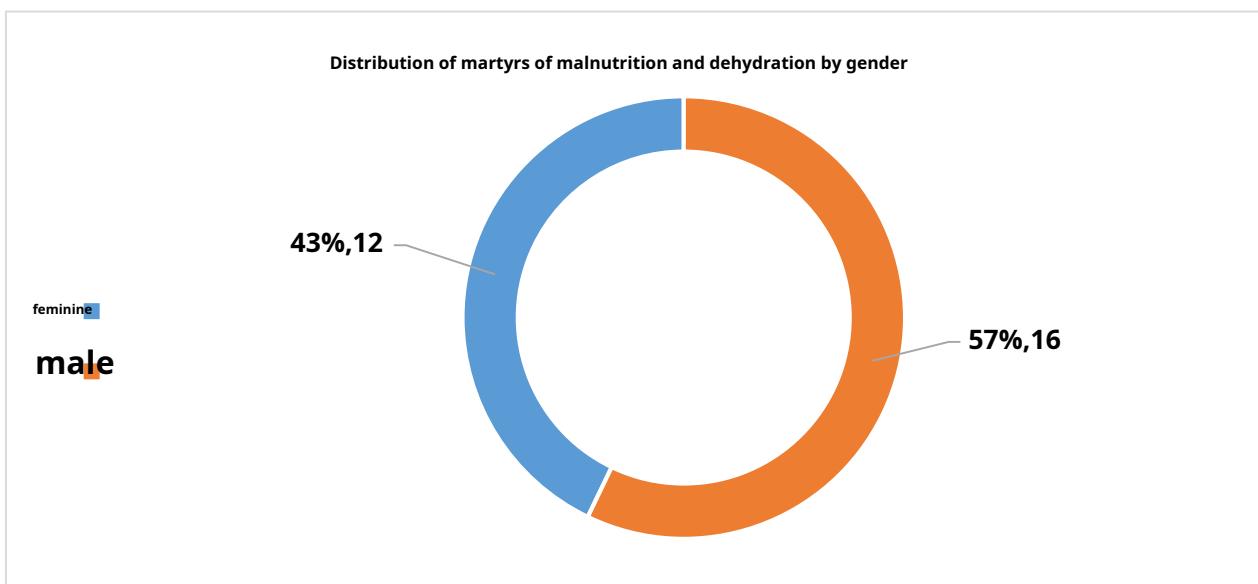

- Martyrs of malnutrition and dehydration

- The death toll from malnutrition and dehydration reached **28** Martyr in the Gaza Strip.
- This number of martyrs from malnutrition and dehydration reflects what reaches hospitals only, and dozens die silently As a result of starvation, they did not reach hospitals.
- Thousands of children suffer from serious complications that may lead to death as a result of the unavailability of their own milk in Gaza and North Gaza.

We call on UN institutions and children's institutions around the world to provide milk for children in Gaza and North Gaza.

 Attachment (3) is a list of the names of martyrs of malnutrition and drought in the Gaza Strip

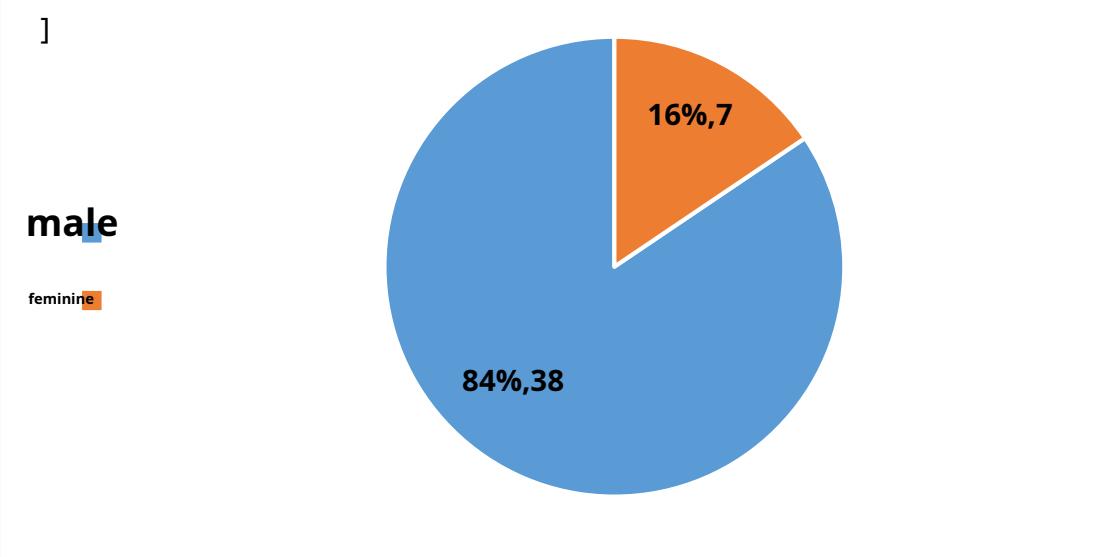

Report of the wounded

- Daily report for the wounded

- The total number of wounded reached during last 24 hours **65** injured.

The distribution of the wounded by hospital is cumulative

! Fifth: Hospitals

- Accommodation beds in government hospitals in the governorates

The average bed occupancy in operating hospitals reached more than **309%**.

- All hospital beds were converted into surgical beds (obstetrics and internal medicine), and an expansion was made to receive the wounded.

In order to increase the clinical capacity of hospitals, early discharge is made for some cases in which there is no problem with their discharge.

- Extra beds were expanded in corridors, tents and schools.

the hospital	Total number of expanded beds Basis J (before expansion)	Total patients Dr The family sick out Expansion H	Total patients dd The mother family Add Yes	Number of wounded (Extreme events)	Family occupancy rate % (Total number of diseases/total Number of basic beds j)

Total	12	34	31	30	3	85%2

+ note/

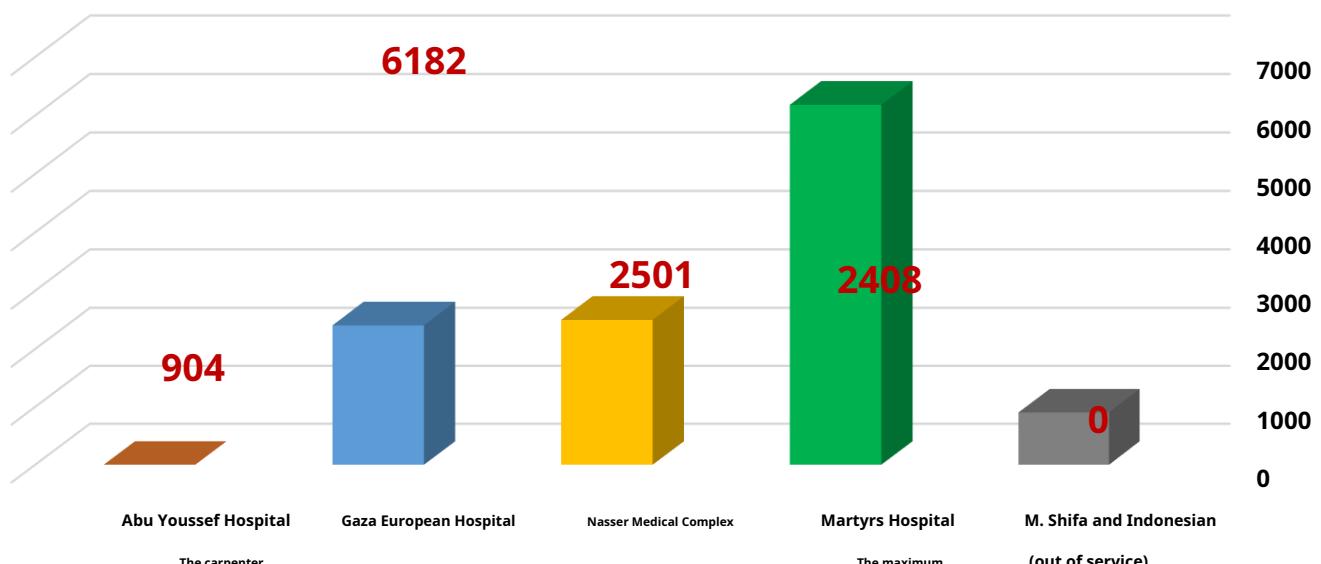

- Bed occupancy in intensive care units varies greatly due to the large influx of cases and early discharge of the injured, and this may expose patients to danger. A strict policy has been prepared for admission to intensive care, so the numbers do not reflect the current situation.
- Nasser Medical Complex has run out of many intensive care medications.

- **Statistics of surgical operations**

- Total daily surgical operations performed **37** surgery (**33** In M. European Gaza, **4** In M. Al-Najjar) and the total cumulative surgical operations amounted to **11,995** practical.

The distribution of operations by hospital is cumulative

note

- More than one operation was performed on more than one patient in one operating room, and some operations were performed in Corridors, sobriety, and without drugs.
- Cases are not emptied from the recovery ward after operations are performed due to the lack of beds for the injured There are dozens of injured people in the recovery rooms.
- Nitrous gas has run out in operating rooms, and there is a shortage of other medical gases.
- Loss of communication with Al-Aqsa martyrs due to the Israeli occupation.
- Nasser Medical Complex was out of service due to the Israeli occupation.

- Kidney dialysis departments

- Total dialysis was performed for a number 30 Case in hospitals during 24 hours.

Cumulative total	40496	28496	7077	9320	10097

- The ambulance system is no longer able to respond to all distress calls to transport the wounded and injured from the field to the hospitals where they were transferred. A large number of wounded and martyrs passed through citizens' cars.

- A large number of victims are still under the rubble and on the roads, and ambulance and civil defense crews cannot reach them.

The distribution of ambulance tasks according to the provider is cumulative

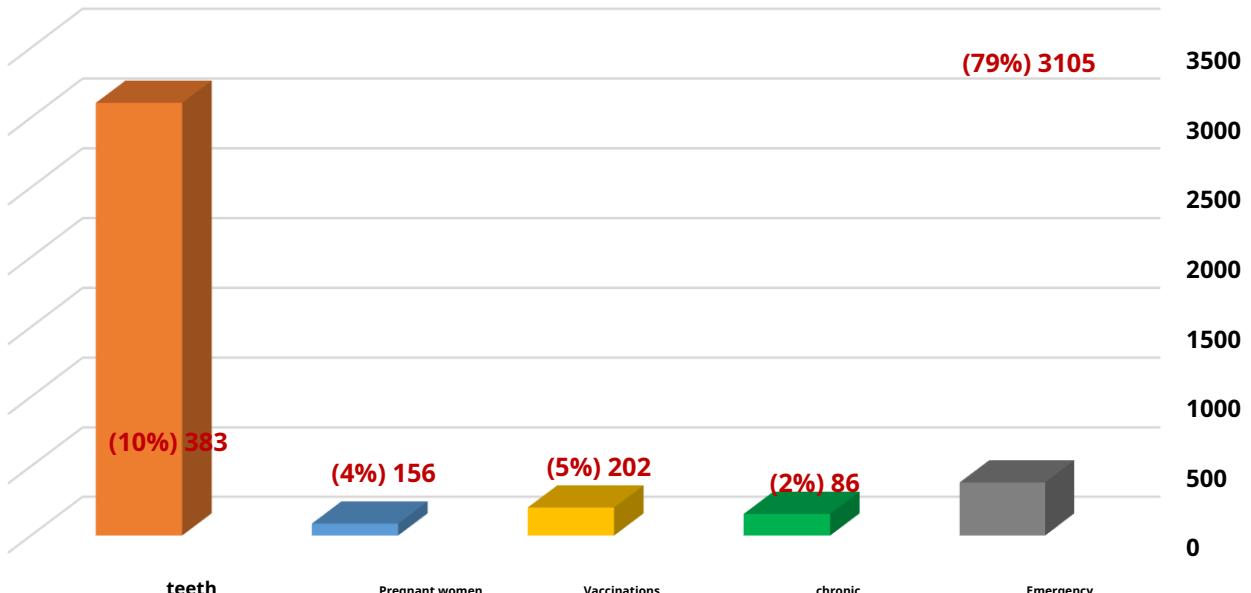

!

Seventh: Primary care

- The total number of daily visitors to primary care centers reached **3,932**sick.

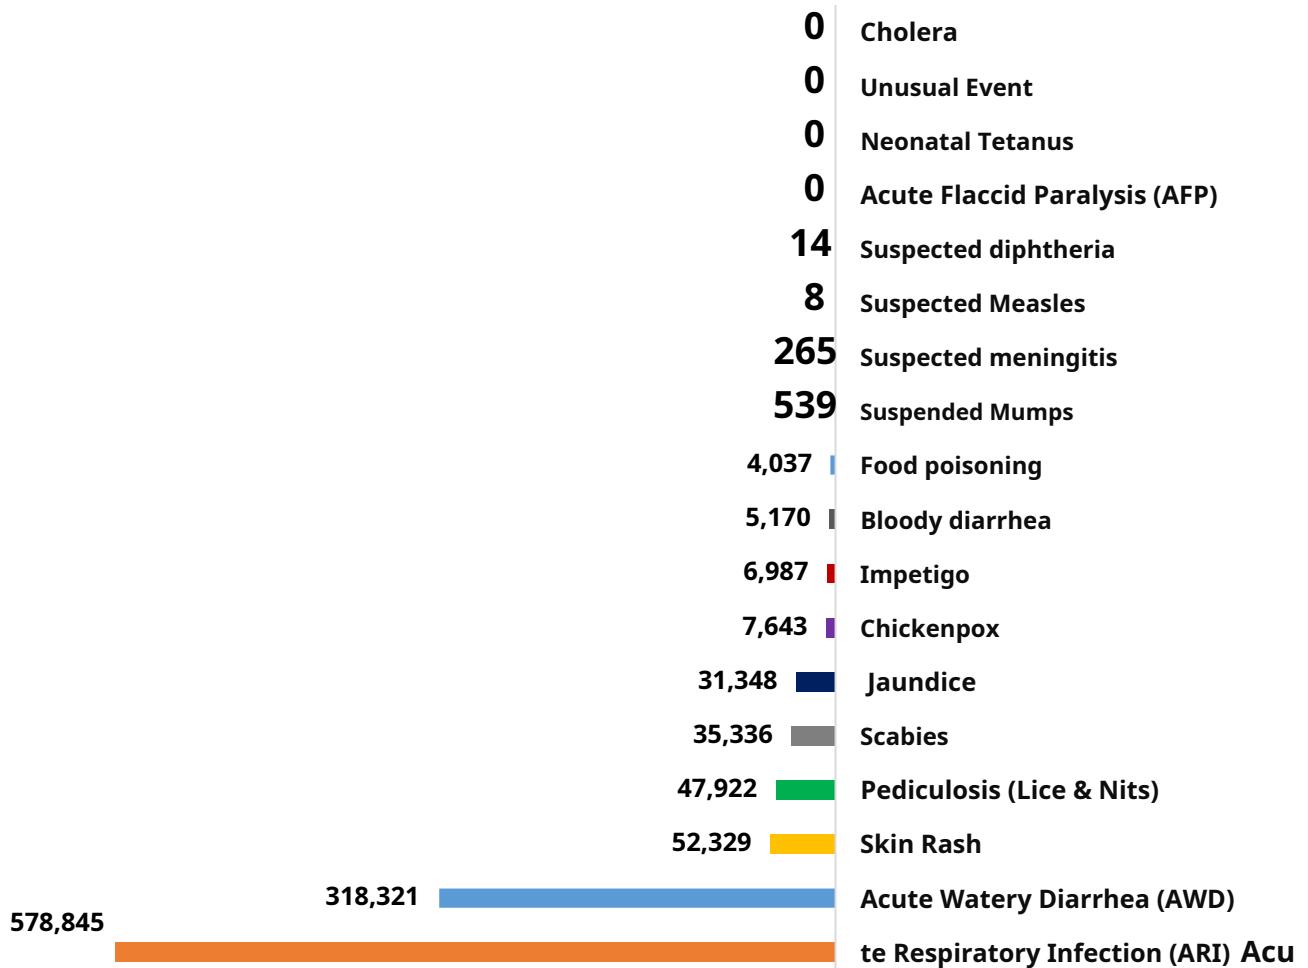

Centers operating during the emergency period								
Governorate	Number of points General for him	For two workers	Total Hesitant n	Flour and chronic	Vaccinations	HaMa	teeth	
North	1	- Communications and the Internet were lost due to the ground invasion, and according to the latest communication, it was reported very soon Abu Bushbak Health Center.	QAll centers For healthy except Halya with 8 points medical.					
Khan Younes	-	Work has been suspended in all health centers in the Khan Yunis area due to the ground invasion of Khan Yunis Governorate, and work is being carried out Halya with 8 points medical.						
Gaza	5	We did not receive the statistics due to communications and Internet problems						
Central	6							
Rafah	2	300	3932	105	86	202	56	383
My daily total	41	030	932	051	86	202	651	383
Total accumulation Yemen beginning of account that		3,354	141	674, 971	7,790	7	53,111	3,576
Vaccinations-8 types of vaccinations were provided, some of which are sufficient for three months and some for more than that, with the exception of the rotavirus vaccine, which was available.								
comments	<ul style="list-style-type: none"> - It has been closed 38 health centers (8 in the north, 10 in Gaza, 8 in the middle, 10 in Khan Yunis, 2 in Rafah) due to (unsafe border areas, difficulty for citizens to reach them) and staff were distributed among the centers in the governorates. - Primary care services are provided in 48 medical points distributed in shelters and citizens' gathering centers in the city of Rafah and Khan Yunis. - loss .Which used to work in the central laboratory of the Turkish Hospital, and now the devices, TSH and PKU tests, and PKU cards have been stopped - The maternal and child health booklet was out of stock, and UNICEF was contacted more than once to no avail. 							
Obstacles	<ul style="list-style-type: none"> - A severe shortage in the nursing workforce and a limited shortage of doctors, especially in the Gaza region due to the displacement of citizens to South Sudan. The work environment is disastrous due to interruptions in electricity, water, and food supplies, and the absence of security and safety. - A shortage of medicines and medical consumables and a shortage of primary care items of more than 60% of the core list of primary care medications. - 350,000 chronic patients are without medication, and this leads to serious health complications for chronic patients. - Difficulty in getting employees to their workplaces in health centers. - Intense pressure from people visiting health centers due to the displacement of citizens and the cessation of services provided by the relief agency. - We are unable to reopen new centers to provide vaccination services due to the lack of nursing staff. The closure of most UNRWA centers for their services increased the pressure of people visiting primary care centres. The accumulation of displaced people in the southern regions increased the work pressure on primary care centers in the south. The crowding of displaced people in shelter centers in light of these cold conditions has increased the spread of respiratory, skin, and other infectious diseases. A threat to the health system and citizens. - Attack on working crews by citizens (chaos in all our centers, where citizens exceed all limits in order to charge their mobile phones) m and batteries Their homes and to fill water... etc. 							

**Distribution of people attending primary care according to the type of service provided daily**

- Cumulative infectious diseases report from the beginning of the aggression until the date of (03/26/2024)
 - Monitored and recorded **1,088,764** Infectious case in primary care centers, government and UNRWA.
 - Of which **31,348** A case of hepatitis C type infection As a result of massive overcrowding in shelter centers Low levels of hygiene in places of displacement in the Gaza Strip.
 - No survey was conducted for infectious diseases in shelter centers and gathering places for displaced people due to the bombing The continuous and dangerous movement of human staff.

Distribution of infectious cases registered in primary care centers and UNRWA by type of disease
